

TROUBLE IS FEARED AT MINE

Half Crazy and Despairing Women Urge Crowd to Violence.

PROPOSE DESCENT TODAY

No Possible Hope For Them If Today's Attempt Shall Fail.

By Sun Leased Wire.

Cherry, Ill., Nov. 17.—Harangues were made today at the main shaft that leads to the tomb of the trapped miners. Mine owners clashed with the state over the production of evidence to show the child labor law was violated by the coal company.

Strong differences arose in the conference of experts in charge of the situation. And every faint hope for the rescue of any of the hundreds of men in the burning mine was killed by the experts.

Every man in the mine must die unless rescued tomorrow. If a last attempt to reach the men which will be made tomorrow, fails, as the two previous attempts have, the mine will be sealed with concrete and weeks or more may pass before it will be opened.

Tonight the two companies of militia are preparing for trouble. Disorder is feared if efforts to take out the men are abandoned or fail. The conference of experts announced that its members are certain every man in the mine is dead.

When the families and friends hear this tomorrow incendiary speeches may drive them to violent expression of the threats and charges voiced here all day.

Angry and despairing women gathered in crowds around the shaft and lynching and crucifixion were advocated.

Incited by women, half crazy by the delays and failures of the rescue work, a shouting, cursing crowd vowed vengeance for the men below.

No attempt was made to go into the mine today. For six hours the score of experts argued for their different ways of taking out the bodies. They split on the question of again opening the main shaft, the action that caused the almost extinguished fire to rage anew.

Every phase of the situation was discussed and it was agreed without dissent that the men in the mine are all dead and that present efforts are only to take out the bodies before all become unrecognizable.

This conference resulted in a decision to make the exploring descent tonight in preparation for the final attempt to reach the men tomorrow.

BITTER RIVALRY BETWEEN BRIDGE COMPANIES

By Sun Leased Wire.

Pittsburg, Pa., Nov. 17.—A contract involving about \$1,750,000 was today secured by the American Bridge company for the making and erection of the fabric of the municipal bridge across the Mississippi river at St. Louis.

There was a most bitter fight between the bridge company and the McClintic-Marshall Construction company of Pittsburgh for the St. Louis contract. The McClintic-Marshall company is the bitter rival of the structural part of the U. S. Steel corporation.

The unsuccessful McClintic-Marshall company this afternoon admitted that its bid for the more fabrication of the steel for this bridge was \$108,000 higher than that of the successful bidder, the American Bridge company.

Henry C. Corsa Tells of Experience With the Sugar Trust Bribers

Fired Because He Told of Frauds Being Committed—The Justice He Didn't Get From Secretary Shaw.

By Sun Leased Wire.

New York, Nov. 17.—"Poor Corsa," was the phrase that Wilbur F. Wakeman, the former appraiser here used last Tuesday in speaking of Henry C. Corsa, the assistant sampler on the Jersey docks, who took to Mr. Wakeman the money given him by the sugar trust's briber.

This was the money that Mr. Wakeman took to Lyman J. Gage, secretary of the treasury, who referred him to Henry D. Havemeyer with the evidence. Corsa's official head was chopped off not long after this, at the time that Mr. Wakeman was succeeded by George W. Whitehead, an appointee of ex-President Roosevelt.

He received his appointment in the custom house through the importunity of Charles H. Treat, former treasurer of the United States shortly after the time in 1898 when Mr. Treat was appointed collector of internal revenue.

Mr. Treat had known him for a great many years. He knew him when he was editor of a paper in Milford, Delaware, he knew him as a man of education, as a civil war veteran and as one whose family was worthy of respect. After his fighting days Mr. Corsa had been engaged in detective work but this fact made no impression upon Mr. Treat's mind at the time. It did not occur that Corsa was admirably fitted for the task ahead of him.

The work to which he was assigned was that of an assistant sampler. "It was then I saw the assistants taking tag their trays through the trust agent's cellar," Corsa told

day. "I was told: 'You are in on this old man. Mums the word—there's money enough to go around in it—don't be a squealer and take your bit and shut up.' The trust's briber, said Mr. Corsa, would take the pots of samples, dump them out and refill them from a hogshead of damped apple sugar kept there for the purpose.

One day when he was coming out of the wash room another employee said, 'You have got your money, old man; it's in your coat pocket. I got mine, too, see.' The other man drew out a roll of bills and Corsa put his hand in his pocket and found a similar roll. A short time after this the system of sampling was abolished and a plan of stabling was installed.

The bribe that the samplers received for cautious stabling with the trust's interests in mind were from \$12 to \$25. Corsa discovered.

"The services were asked to render would save the sugar trust about \$2000 on each cargo," said Mr. Corsa today. "It was pointing us for about \$200 on each cargo, counting what went to the head sampler as well as the samplers and their assistants."

His first few bits amounted to \$80 while he was considering what he ought to do. Then he thought of his old friend, Mr. Treat, who was collector of internal revenue and he went to Mr. Treat with his problem. He advised Corsa as an old soldier, as a citizen and as a civil service man to go to his superintendent and tell him the whole story.

The next time the wash room method brought him his bit, Corsa took it to

MUCH SUFFERING FROM COLD

Charitable Institutions Receive Appeals For Help From Poor.

WERE UNPREPARED

Grim Winter has come.

With it suffering has come to the unfortunate of Canton.

Wednesday's cold spell found many persons unprepared. As a result there were many pleas upon the appeals upon the charitable institutions for financial assistance.

From the foreign districts the appeals for help were the most numerous. The day before, barefooted children were basking in the sunshine and warmth of Indian summer. They had no shoes nor stockings in some instances and Wednesday's drop in temperature found them unprepared.

Most of the appeals were for fuel and clothing. Many had not thought of heat during the nice weather and when the cold swooped upon them they had no money with which to purchase coal—and some were even without enough to eat.

The Salvation army was kept busy at the citadel receiving calls for assistance and rendering help which was entirely insufficient. Some were scantily clothed; some wanted comforters and others begged clothing and some asked for food.

The increasing numbers of calls for aid is rapidly diminishing the army's supply, and it will need replenishing very soon.

At the city prison the first signs of cold weather drove many men to seek lodging there. Early in the evening the heat pipes for berths were fixed. Among those who applied at police headquarters for a night's lodging were white men and negroes, old men and young. Many of the faces were familiar ones, for the same people come there year after year.

WILL BALLINGER GET THE HOOK?

A Report That Pinchot Gives President an Ultimatum.

PINCHOT DENIES IT

By Sun Leased Wire.

Washington, Nov. 17.—The thing called the Ballinger-Pinchot controversy which involves diverse views of Secretary of the Interior Ballinger and Forester Pinchot over the methods to be employed in conserving water power sites embraced in public lands, broke out afresh today in spots.

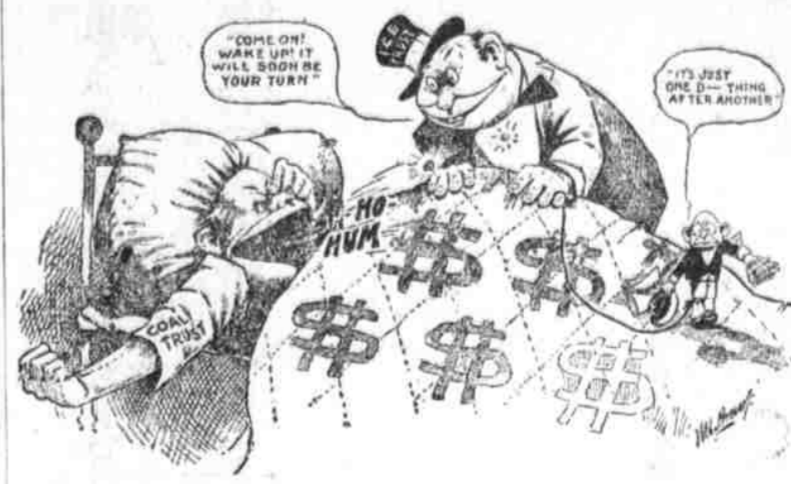

That is to say it was asserted in newspaper publications that Mr. Pinchot had delivered an ultimatum to President Taft that the government service was too small to hold Mr. Ballinger and Mr. Pinchot at the same time, and the president had directed Attorney General Wickersham to make a new investigation of Mr. Ballinger's alleged interest in the Cunningham claims to the coal lands in Alaska.

Pinchot makes this denial: "The story that I have issued ultimatum to the president, like the rest of a conspiracy story, is merely a silly fabrication."

"The president was good enough to express his satisfaction with my work and I am going ahead with it," he said. "The story that President Taft had directed his attorney general to investigate Mr. Ballinger's conduct in connection with the Cunningham claims was full of details. All that it lacks is any sort of confirmation."

JUST SEE WHO'S AWAKENED

Orient Has Awakened From Profound Sleep

DR. IYENAGA BRANDS WAR RUMORS BETWEEN JAPAN AND U. S. AS UTTERLY FALSE.

Tokyo, the Exponent of Western Liberalism, was the subject of the first of a series of illustrated lectures at the First Christian church, Wednesday evening by Dr. Toyokichi Iyemaga, in the interest of the Canton Lady Teachers' club.

Dr. Iyemaga is a lecturer on political science at the University of Chicago, and is able to speak with authority on the conditions in the Orient.

The idea of a war between the United States and Japan he branded as untrue and absurd. He said: "Asia has long been wrapped in profound sleep, but has roused itself from that sleep, tormented by a spirit of unrest. The political structure is falling. Constitutionalism is on the incline. It rose when Commodore Perry brought the idea of the west when he visited Japan. Change of government was due to that."

Married to Octoroon; Commits Suicide

FIRST COUSIN OF PRINCE VON BUELOW VIOLATES LAW OF LOUISIANA.

By Sun Leased Wire.

New Orleans, Nov. 17.—Edward Von Buelow, a first cousin of Prince Von Buelow of Germany, committed suicide by jumping in the river because he was married to an octoroon woman.

He was arrested a week ago charged with violating the law which prohibits such relations between the races. Von Buelow came to this country about twelve years ago and in 1902 was married to a young woman who claimed to be a widow with two children. She was almost white and the marriage was performed in Jefferson parish.

She bore him two children and the family lived in a quiet residential district and seemed very happy. Neighbors began to gossip and this led to an investigation and the disclosure that the woman was colored. Von Buelow was arrested and released on bond and disappeared three days ago.

His body was found in the river just below the city last afternoon and was identified. A note found on the body directed that it be turned over to his wife.

Mr. Rex said that everyone knew that the company was going to leave Cleveland as it was published in the papers there.

DOROTHY RUSSELL IS TO BE A JAP PRINCESS

Los Angeles, Cal., Nov. 17.—Not having a great fortune to pave the way to a European title, Dorothy Russell, daughter of Lillian Russell, the actress, has decided to become an Oriental princess.

She admitted last night that she is engaged to Aoki Sumutani, Prince Mutsuhito, a nephew of the emperor of Japan.

"For three hours he listened to me," said Mr. Corsa. "He seemed all sympathy. He said at the end of the interview as he shook hands with me: 'I'll see you are not back. I could demand it right now. But things are working so smoothly between Mr. Whitehead and myself that I don't want to break in abruptly upon him and demand it. I'll take it up and I am sure you will be given the justice due you.'"

After waiting for months Corsa heard through Mr. Wakeman that Mr. Shaw could do nothing.

GIRL FOUGHT FOR HONOR; FOUND DEAD

Missing From Home in Milwaukee, Wis., Since Last Friday.

STRANGLED TO DEATH

Placed in Sitting Posture in Office After Being Murdered.

By Sun Leased Wire.

Milwaukee, Nov. 17.—The body of Helen Zinda, a pretty girl, 14 years old, who had been missing from her home since Friday was found today in an abandoned real estate office at North and Humboldt streets.

Finger marks on her neck indicate she was strangled to death. After she had been killed she was placed in a sitting posture under a desk. The police are searching for two young men.

The real estate office, which is in a lonely section, had been entered by the window being pried open. Dust marks showed where the girl had been dragged across the floor.

One of the two chairs in the room shows marks of having been hurled against the wall and it is believed that the girl struggled with her captors and used the chair as a weapon.

The disordered condition of the office showed that the girl had made a brave fight to protect her honor and her life.

KRUPPS CLAIM A LOSS OF \$500,000 A YEAR

By Sun Leased Wire.

Pittsburg, Pa., Nov. 17.—That at least \$500,000 per year was being lost to or withheld from the Krupps by the Carnegies and other steel firms using their patents was one of the features brought out today in taking testimony in the case of the Krupps and the Carnegies against the Midvale Steel company.

The latter concern is being accused of unwarranted use of ideas patented by the Krupps and for the use of which the Carnegie Steel company and others in the United States have for years paid royalties.

BRIDGE DYNAMITED AND NEARLY DESTROYED

By Sun Leased Wire.

Indianapolis, Ind., Nov. 17.—It was discovered today that the stone bridge over White river at Tenth street had been dynamited and that some of the larger stones had been displaced by the explosive, rendering passage over the structure dangerous.

The police connect the outrage with the dynamiting of four structures on which a non-union contractor was working and attempts to destroy which were made two weeks ago.

The city has offered a reward for the arrest of the dynamiters of the four structures and Mayor Bookwater raised a fund among merchants to be used as a reward also.
